

CHELAN FIRE AND RESCUE

FIREFIGHTER/EMERGENCY MEDICAL TECHNICIAN

JOB DESCRIPTION 023

Division: Operations

JD 023 REPLACES: Firefighter JD	Date: 03/11/2010	ISSUED BY: Chief Lemon
------------------------------------	------------------	------------------------

DEFINITION:

Firefighter/EMT work includes responding to and dealing with emergency situations, natural conditions that pose a threat to life and property, and incidents of service to the citizens. Employees in this position are responsible for the protection of life and property through firefighting activities, emergency medical services, fire inspection activities, public education and other like duties. They perform a full range of emergency work under adverse and strenuous physical conditions. Firefighter/EMTs have a high risk of exposure to hazardous conditions, toxic chemicals and infectious diseases encountered during firefighting or emergency medical incidents.

Firefighter/EMTs perform duties in the following areas: emergency firefighting operations (structural, wild land, vehicles), emergency medical operations, special rescue operations, company level fire & life safety building inspections, other fire prevention programs, public education, public relations, maintenance of apparatus, equipment and facilities, testing of fire hydrants, hose, ladders, pumps, instructing fire service and medical aid training session and other duties as directed by the Fire Chief.

This position is an at will employment position assigned to a fifty-six hour shift work week with off duty call back or a 40 hour work week with after hour call back.

SUPERVISION RECEIVED AND EXERCISED:

Firefighter/EMTs report to and are accountable to his/her company officer. Work performance of the Firefighter/EMT will be evaluated by their respective company officer for the quality of work, level of proficiency and knowledge of emergency operations, apparatus, equipment, procedures and related responsibilities. The Firefighter/EMT is also evaluated for his/her ability to work as part of a team in the effective and timely achievement of Fire District goals and objectives. Such evaluation will be based on their level of experience and rank relative to their status; probationary, third, second, and first class firefighter status.

Supervises: Firefighter/EMTs assume the duties and responsibilities of the company officer, in an acting capacity, when assigned or at an emergency, in the absence of an officer. Supervises volunteer personnel during emergency operations, training session and other details.

ESSENTIAL FUNCTIONS:

Ability to don specialized safety equipment (bunker gear, respirators etc) and perform physically demanding hazardous work for long periods of time in emergency conditions of high stress, strenuous physical exertion under such conditions as height(s), cramped surroundings, hot smoky environments and limited visibility.

Perform and maintain physical conditioning in accordance with the Fire District's health and fitness requirements.

Receive emergency alarms; operate radio and other communications equipment under routine and emergency conditions.

Drive or ride Fire District apparatus to alarms, place equipment, lay and connect hoses and nozzles, raise and climb ladders, use high pressure water hoses, chemical extinguishing agent's, fire pumps, hydraulic equipment, power tools, hand tools during emergency and non-emergency operations and other tools and equipment as required.

Remove persons from dangerous and hazardous environments and administer emergency medical aid as required.

Ventilate burning structures; perform salvage operations and other related tasks.

Complete and maintain computer records, paper work, records and forms as directed by the company officer.

Participate in the in-service company inspection program.

Read, comprehend, understand and be familiar with and adhere to Fire District policies, Standard Operating Guidelines, directive and procedures.

Perform inspections, testing and maintenance of fire hydrants, fire pumpers, hose, ladders and extinguishers.

Participate in public education and public relation events.

Perform maintenance of Fire District facilities, grounds and living quarters.

Maintain personal appearance as directed by Fire District policies, Standard Operating Guidelines, directive and procedures.

Conduct, participate, and/or instruct fire training sessions, drills, or classes for Fire District members, public and others as directed.

Attend conferences, classes, training session on firefighting, emergency medical services, special rescue, disaster control, etc. as directed.

Maintain skill levels through ongoing training to prevent degradation of skills.

Perform other related work as assigned.

WORK ENVIROMENT:

The work environment characteristic described here are representative of those an employee encounters while performing the essential functions of this job. The employee frequently works near moving mechanical parts inside and outside in all weather conditions. Fifty to ninety percent of the work time is spent outside a building and exposed to the sun, wind, rain or snow. Firefighter/EMT's work location and environment is conditional based upon the location of an emergency. Personnel may find themselves working at, and/or in, any given resident, commercial structure or other structure within the jurisdiction and/or neighboring jurisdiction; on state HWY, county roads, city streets and the like; open space such as open, pastures, fields, forests; office setting; apparatus bays. etc. The noise level in the work environment is moderately noisy

SELECTION GUIDELINES:

Formal applications, rating of education and experience; written testing, oral interview, reference check, background checks and job related tests may be required.

The essential duties, knowledge, skills and abilities listed above are intended only as illustrations of the various types of work that may be performed. The omission of specific statements of duties does not exclude them from the position if the work is similar, related, or a logical assignment to the position.

The job description does not constitute an employment agreement between the employer and employee and is subject to change by the employer as the needs of the employer and requirements of the job change.
